

Digital Twin of a Smart Room Release 1 Team 2

Nuray Seker, Abir Sikder, Stefan Pilgerstorfer

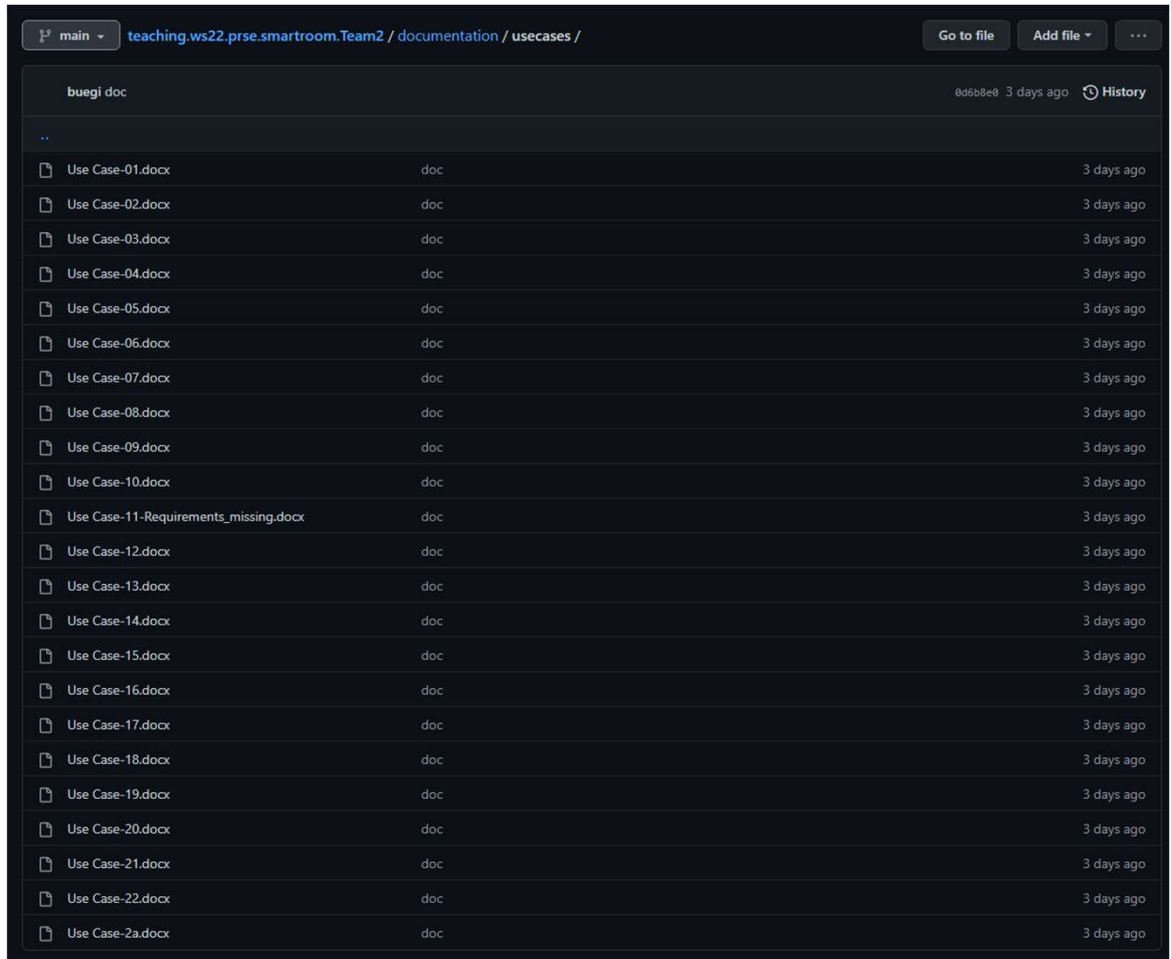

Praktikum Software Engineering – WS2022/23

Presentation Release 1 - Agenda

- Use Case Description
- UI Prototype
- UML Class Diagram
- Current Status
- Planning for Release 2

Use Case Description

■ Overview
■ Sample
Use Case 21

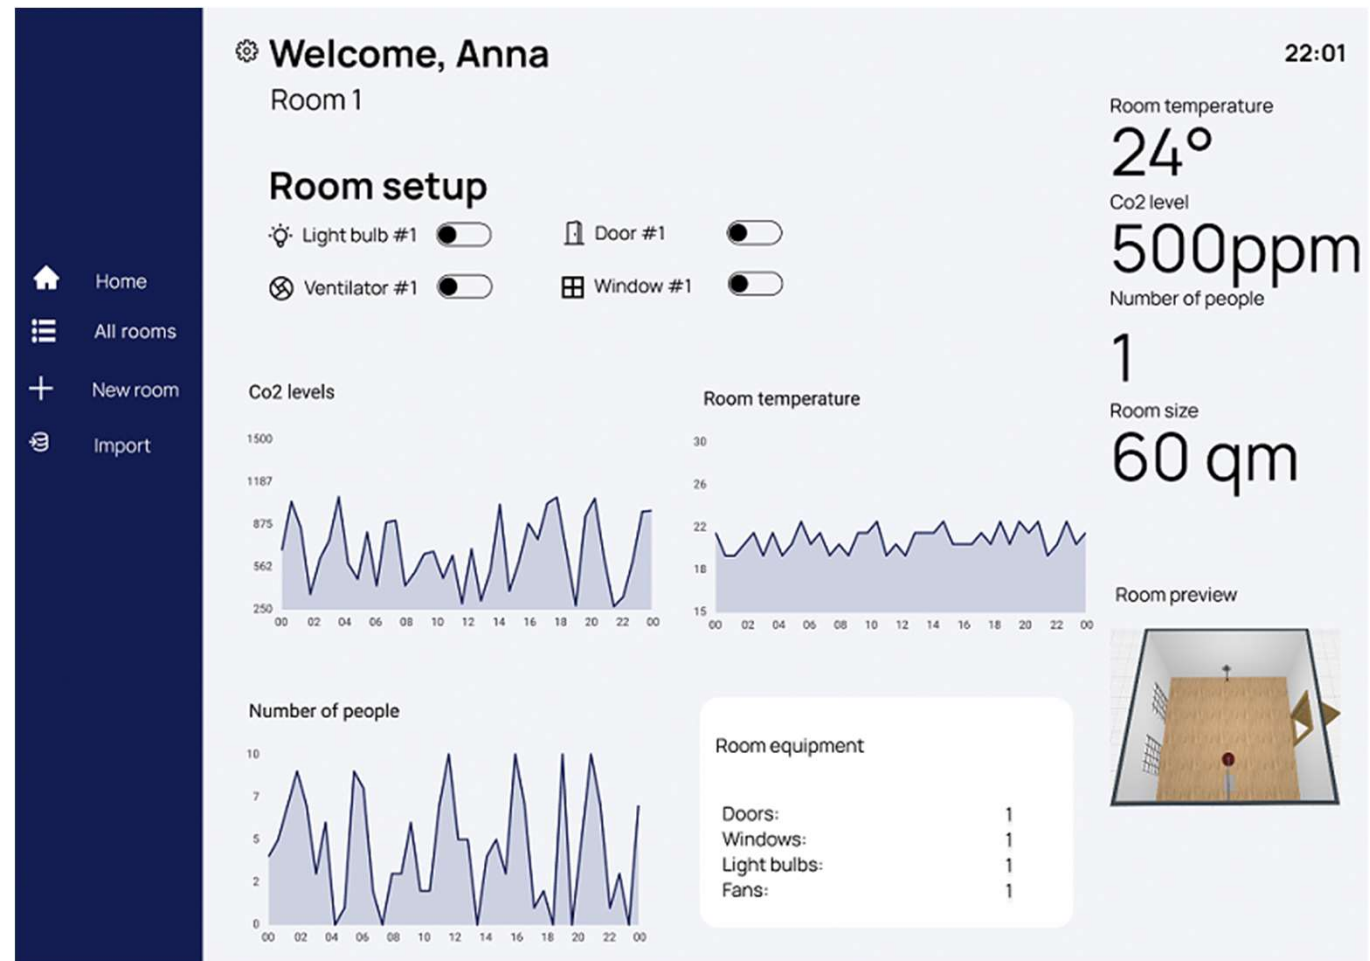

The screenshot shows a file explorer interface with a dark theme. At the top, there is a breadcrumb navigation path: "main > teaching.ws22.prse.smartroom.Team2 / documentation / usecases /". To the right of the path are buttons for "Go to file", "Add file", and a menu icon. Below the path, the current directory is labeled "buegli doc" with a file icon, and a hash "0d6b8e0" followed by "3 days ago" and a "History" link. The main area contains a list of files, each with a document icon, a name, a type, and a timestamp.

File Name	Type	Timestamp
Use Case-01.docx	doc	3 days ago
Use Case-02.docx	doc	3 days ago
Use Case-03.docx	doc	3 days ago
Use Case-04.docx	doc	3 days ago
Use Case-05.docx	doc	3 days ago
Use Case-06.docx	doc	3 days ago
Use Case-07.docx	doc	3 days ago
Use Case-08.docx	doc	3 days ago
Use Case-09.docx	doc	3 days ago
Use Case-10.docx	doc	3 days ago
Use Case-11-Requirements_missing.docx	doc	3 days ago
Use Case-12.docx	doc	3 days ago
Use Case-13.docx	doc	3 days ago
Use Case-14.docx	doc	3 days ago
Use Case-15.docx	doc	3 days ago
Use Case-16.docx	doc	3 days ago
Use Case-17.docx	doc	3 days ago
Use Case-18.docx	doc	3 days ago
Use Case-19.docx	doc	3 days ago
Use Case-20.docx	doc	3 days ago
Use Case-21.docx	doc	3 days ago
Use Case-22.docx	doc	3 days ago
Use Case-2a.docx	doc	3 days ago

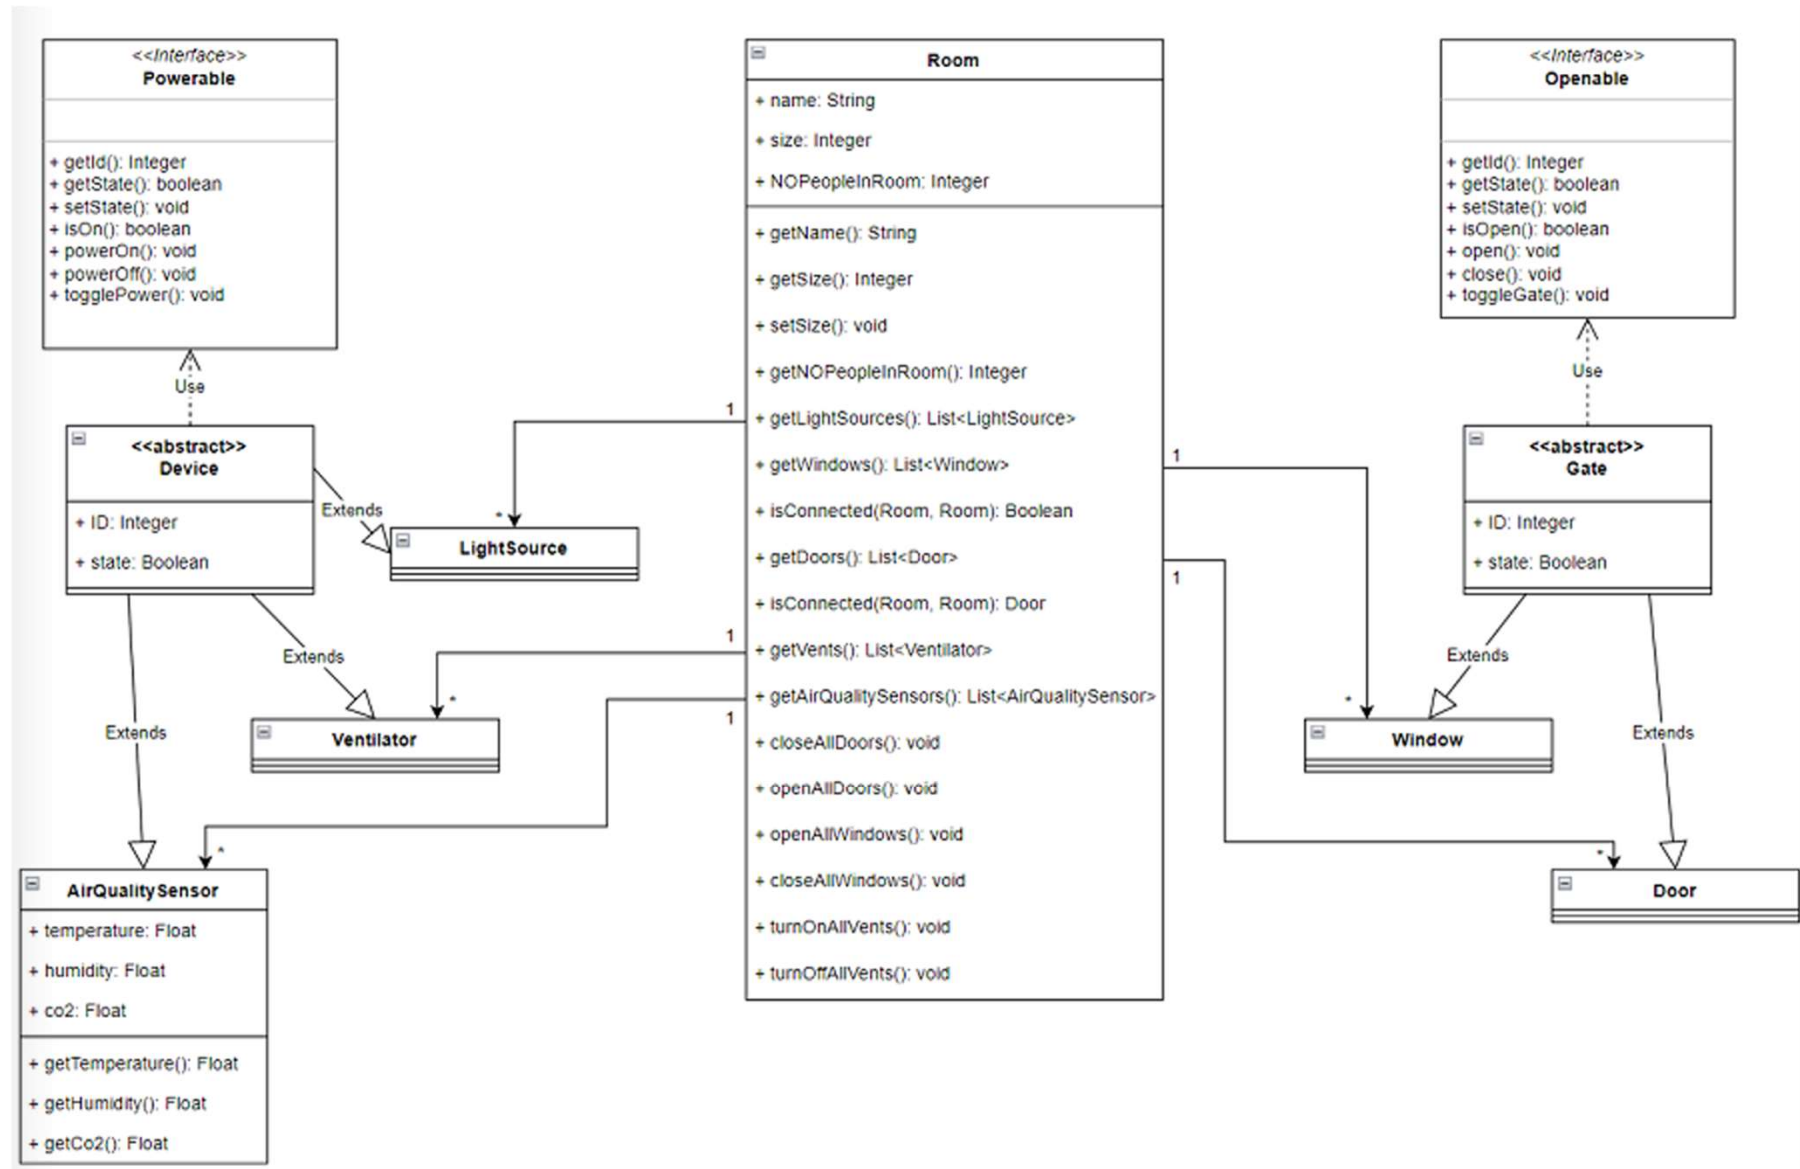

UI Prototype

Tool: Figma

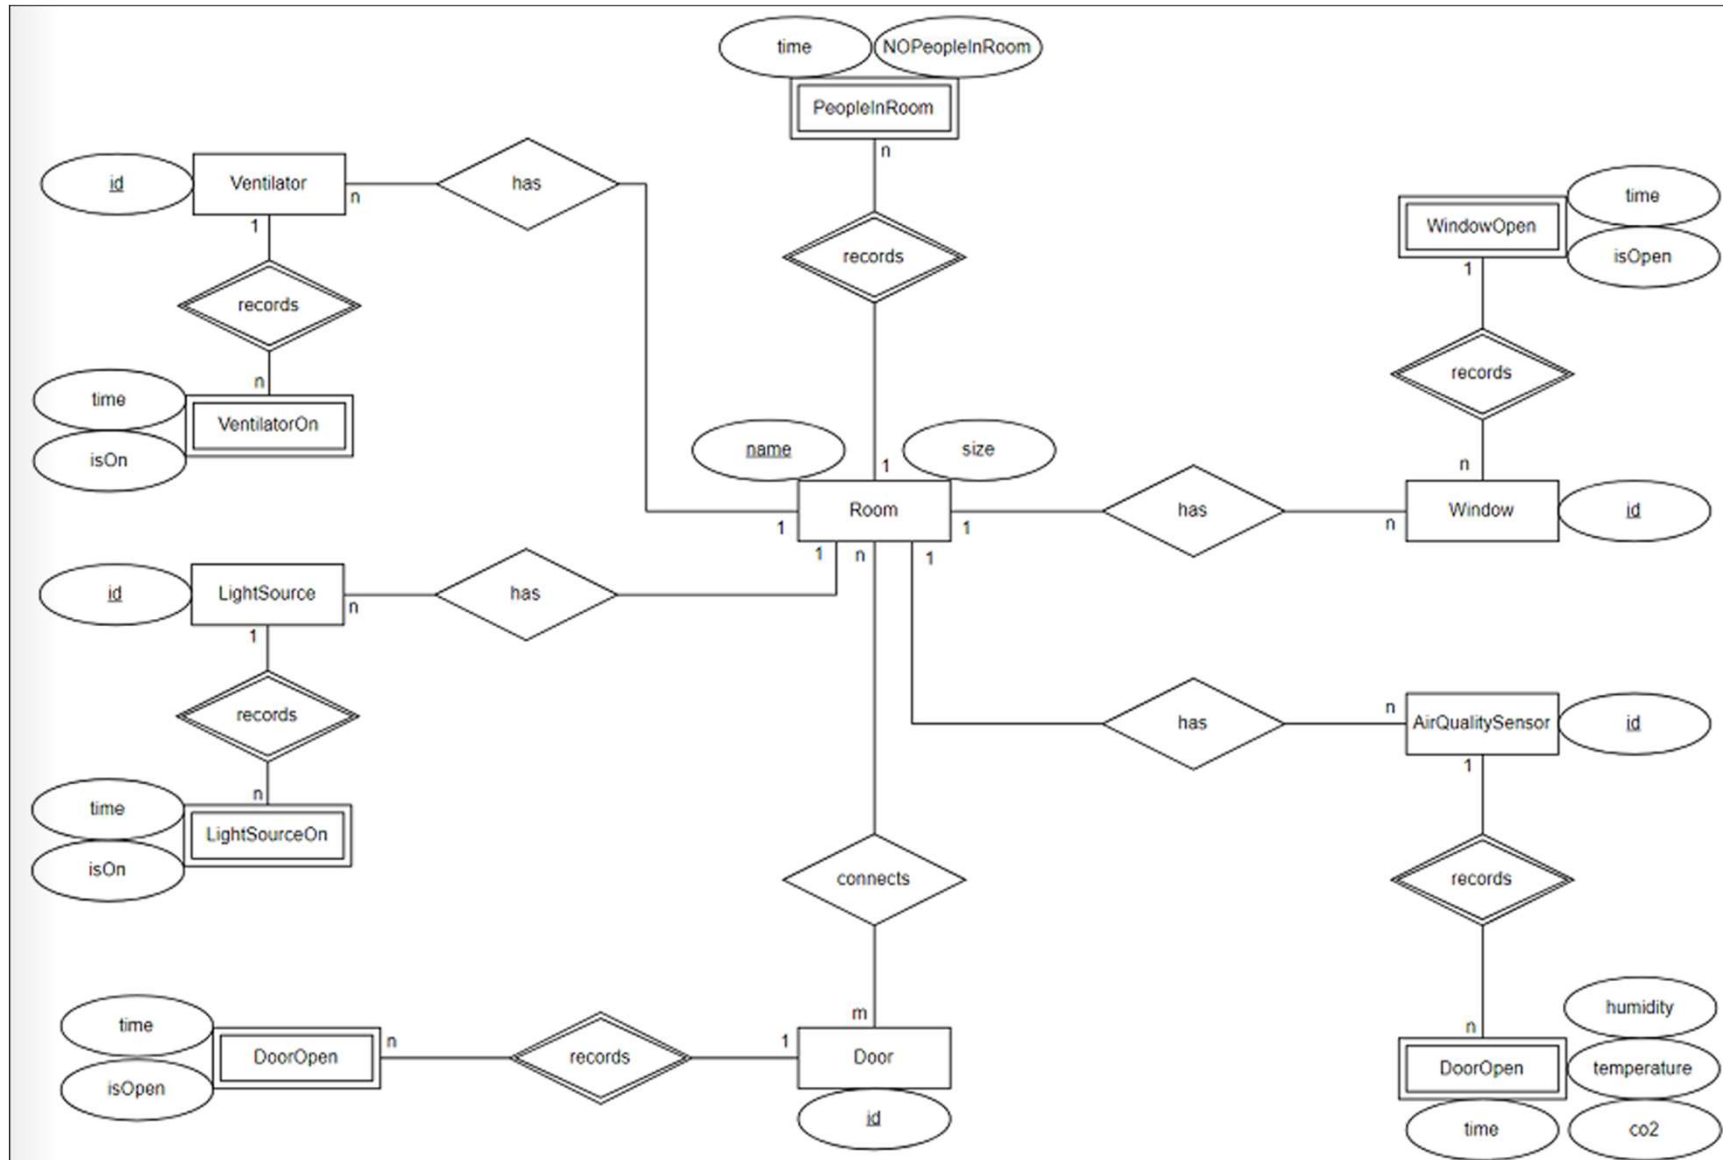

UI Prototype

Class Diagram (UML, DrawIO)

ER Diagram (DrawIO)

What was done, how was the distribution of the tasks?

- Configure github (all)
- Configure zenhub (all)
- Configure circleCI (all)
- Concept (Nuray, Abir)
- UseCases (all)
- Prepare SampleData (LightSource, AirQuality) (Stefan)
- UI Prototype (Nuray)
- UML Diagram (Stefan, Abir)
- ER Diagram (Stefan, Abir)

Which tasks were created?

A screenshot of the Zenhub web application interface. The top navigation bar shows the project name "jku-win-se / teaching.ws22.prse.smartroom.Team2" and various tabs like Code, Issues (47), Pull requests, Zenhub (active), Discussions, Actions, Projects, Wiki, Security, Insights, and Settings. Below the navigation bar, there are filters for Repo (1/1), Label, Sprint, Assignee, Epic, Release, Estimate, and Author. The main content area is divided into four columns: "New Issues" (15 Issues), "Epics" (4 Issues), "Icebox" (0 Issues / 0 Points), and "Product Backlog" (20 Issues). The "New Issues" column lists four issues, all labeled "enhancement": #31 "Line chart room temperature", #32 "Line chart for co2 levels", #33 "Line chart for number of people in room", and #34 "Line chart for light sources". The "Epics" column lists three epics, each with a "Filter by epic issues" button: #49 "Automation rules", #48 "Remote control", and #47 "GUI". The "Icebox" column is empty and contains the text "Low priority Issues that do not need to be addressed in the near future." The "Product Backlog" column lists four items: #11 "First version of GUI" (UI), #12 "Updated UML diagram" (documentation), #17 "Decide which DBMS" (Database, question), and #18 "Database design" (Database).

Did the team make a good estimation of the effort?

■ UI Prototype more effort than expected
(mostly performed by Nuray)

Team activities						
TEAM MEMBER		LATEST ACTIVITY			TOTAL TRACKED (THIS YEAR)	
	Abir Sikder	1. LVA • PR SE	01:00:00	in 2 hours	18:09:58	<div><div></div></div>
	Nurayseker 54	Präsentation - Sprint 1 • PR SE	02:20:00	2 hours ago	25:42:38	<div><div></div></div>
	Stefan Pilgerstorfer	präsentation • PR SE	02:18:29	2 hours ago	19:13:54	<div><div></div></div>

Problems & Lessons Learned

- CircleCI
- Zenhub
- Recognizing all requirements and devices
(Slides, Requirements document, ...)
- Basic knowledge about required tools
- Estimation problems will stay

Next Steps + Planning Release 2

■ Prototype

- Implementing database

- Filling dummy data (database connection)

- GUI

- Some basic features working

 - Import csv data

 - CRUD on basic classes

- Unit tests for implemented features

- [Zenhub](#)
